

Bricklaying Apprenticeship Engagement Pathway

The current demand for Bricklayers and
Bricklaying Apprentices in WA is very high.

**Are you interested in becoming a bricklayer apprentice but
don't have prior knowledge or experience?**

Pre -Apprenticeship or a Pre -Vocational Program will help
you gain the necessary skills to transition into an actual
Bricklaying Apprenticeship.

These courses are being run by registered training providers
in many locations all supported by the ABBTF.

The WA Government has reduced the cost of training
significantly and in some cases are cost free (Skill Sets).

To get started please contact any of the following registered
training providers (listed on the back page) and enroll today.

The ABBTF and the training provider will support you in this
process by providing you with information, skills and an
opportunity to engage on site in either a work trial or work
experience.

For more information please contact Dean Pearson on 0418 200 401
or email dean.pearson@abbtf.com.au.

Bricklaying Apprenticeship Engagement Pathway
